T-MATTING MK1

T-Matting is a new and unique innovation, designed specifically for 'Narrow' and 'Micro' trenching applications, exclusive to CID and has been developed in conjunction with contractors, local authorities and network providers around the UK.

MK1 Key Features

- 150mm width with 70mm x 30mm T-Piece
- CiD unique T-Matting design
- Tried, tested and approved
- Anti Skid Ribbing
- Flame Resistant PVC
- 2m or 3m lengths
- Ideal for "micro trenching" applications
- Flexible material to cope with uneven surfaces and bends
- Ideal for temporary cover of narrow trenches awaiting reinstatement
- Footways can remain open so it provides minimal disruption to the public
- Protects against water ingress, depressions and shrinkage further down the line
- Highly visible for additional public safety
- Tested to BS7976 slip test
- Fully recyclable material

Available in:

or any Pantone provided (MOQ's apply)

 50m x 2m length per pallet.

**This is not a bridging device and should always be used with support of ground.*
