MULTISAFE SS100 SPORT STYLE SAFETY SPECS - LIGHTWEIGHT

SC06490, SC06492, SC06491

Available In:

Clear Lens - **SC06490**
Yellow Lens - **SC06492**
Smoked Lens - **SC06491**

The Multisafe SS100 Sport Style Safety spec (Formerly Endurosafte) is made entirely of highly-resistant polycarbonate, which makes the SS100 very lightweight and also offers a wrap around feel and protection, with panoramic field of view.

Anti-fog coating

The anti-fog coating allows you to work in optimal conditions by removing the effect of condensation that occurs when there are large temperature differences or when wearing non-ventilated frames.

Anti-scratch coating

The anti-scratch coating acts as a shield that improves the resistance of lenses and reduces the formation of scratches. It lengthens the life of the lens and improves user comfort, preventing any scratches that could impair vision.

Key Features

- Lightweight
- Brilliant performance, field of view
- Anti-scratch and anti-fog
- Optical class 1 polycarbonate lens
